

# MagniFly™

**2x Acrylic Lens**      **4x Bi-Focal Spot Lens**

**Flexible Arm, Lighted Hands-Free Magnifier**

**MagniFly™** is a lighted, fully-adjustable, flexible arm “hands-free” magnifier that attaches to your table-top or can be clamped to most fly-tying vises for convenient hands-free use. Its large 2x power lens gives you a sharp, distortion-free view, and 4x power bi-focal spot lens allows you to see even the finest details with ease. Three super-bright LED lights allow use in low-light conditions.

- ***Flexible Arm, Lighted Hands-Free Magnifier***
- ***Perfect for Fly-Tying***
- ***Ideal for Hobbies, Model Building, and Small Electronics***
- ***Attach to Most Tables Using Supplied "C" Clamp or Attach Directly to any Standard Fly-Tying Vise***
- ***Uses 3-AAA Batteries or Supplied 4.5V DC Adapter***

***To use while attached to table-top...***

Attach "C" clamp securely to table or work surface. Slide magnifier base onto peg protruding from clamp and tighten down using turn-screw on front of base. Position magnifier lens over object to be magnified. Switch-on light to illuminate subject.

***To use while attached to fly-tying vise...***

Slide fly-tying vise through hole in magnifier base and tighten down using turn-screw on front of base. Make sure the head of the vise can be positioned under the magnifying lens. Secure the fly-tying vise to table-top or work surface. Adjust magnifier lens to comfortable viewing distance. Switch-on light to illuminate subject.

**Warning:** Do not leave batteries installed during extended periods of disuse. Do not mix new and old batteries. Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.
